To The Reader:

I am pleased to present to you the first annual report of the Office of Institutional Research, Selected Institutional Characteristics.

As you are aware, we are in the process of developing a strategic plan for the College. To do so demands the ability to review our recent history in several important areas. The Office of Institutional Research is charged with this responsibility; this document is one of the ways in which that office accomplishes its mission.

The Director of the Office of Institutional Research, Dr. Ronald Maggiore, is interested in hearing constructive comments concerning the content and format of this report. If there is information about Bridgewater State College that is not contained in this report and which you wish to see included in the future, please do not hesitate to let him know.

Sincerely,

Adrian Tinsley
President

PREFACE AND ACKNOWLEDGEMENTS

This is the first issue of our annual fact book, Selected Institutional Characteristics. It is designed to profile trends in student, staff, and financial data for use in planning efforts, as well as to inform the College community of the characteristics of and changes in our student and staff populations.

It is our hope that you will help us make the information more useful with each publication. In this regard, we welcome any suggestions for future improvements and any comments regarding items which you have found to be particularly useful.

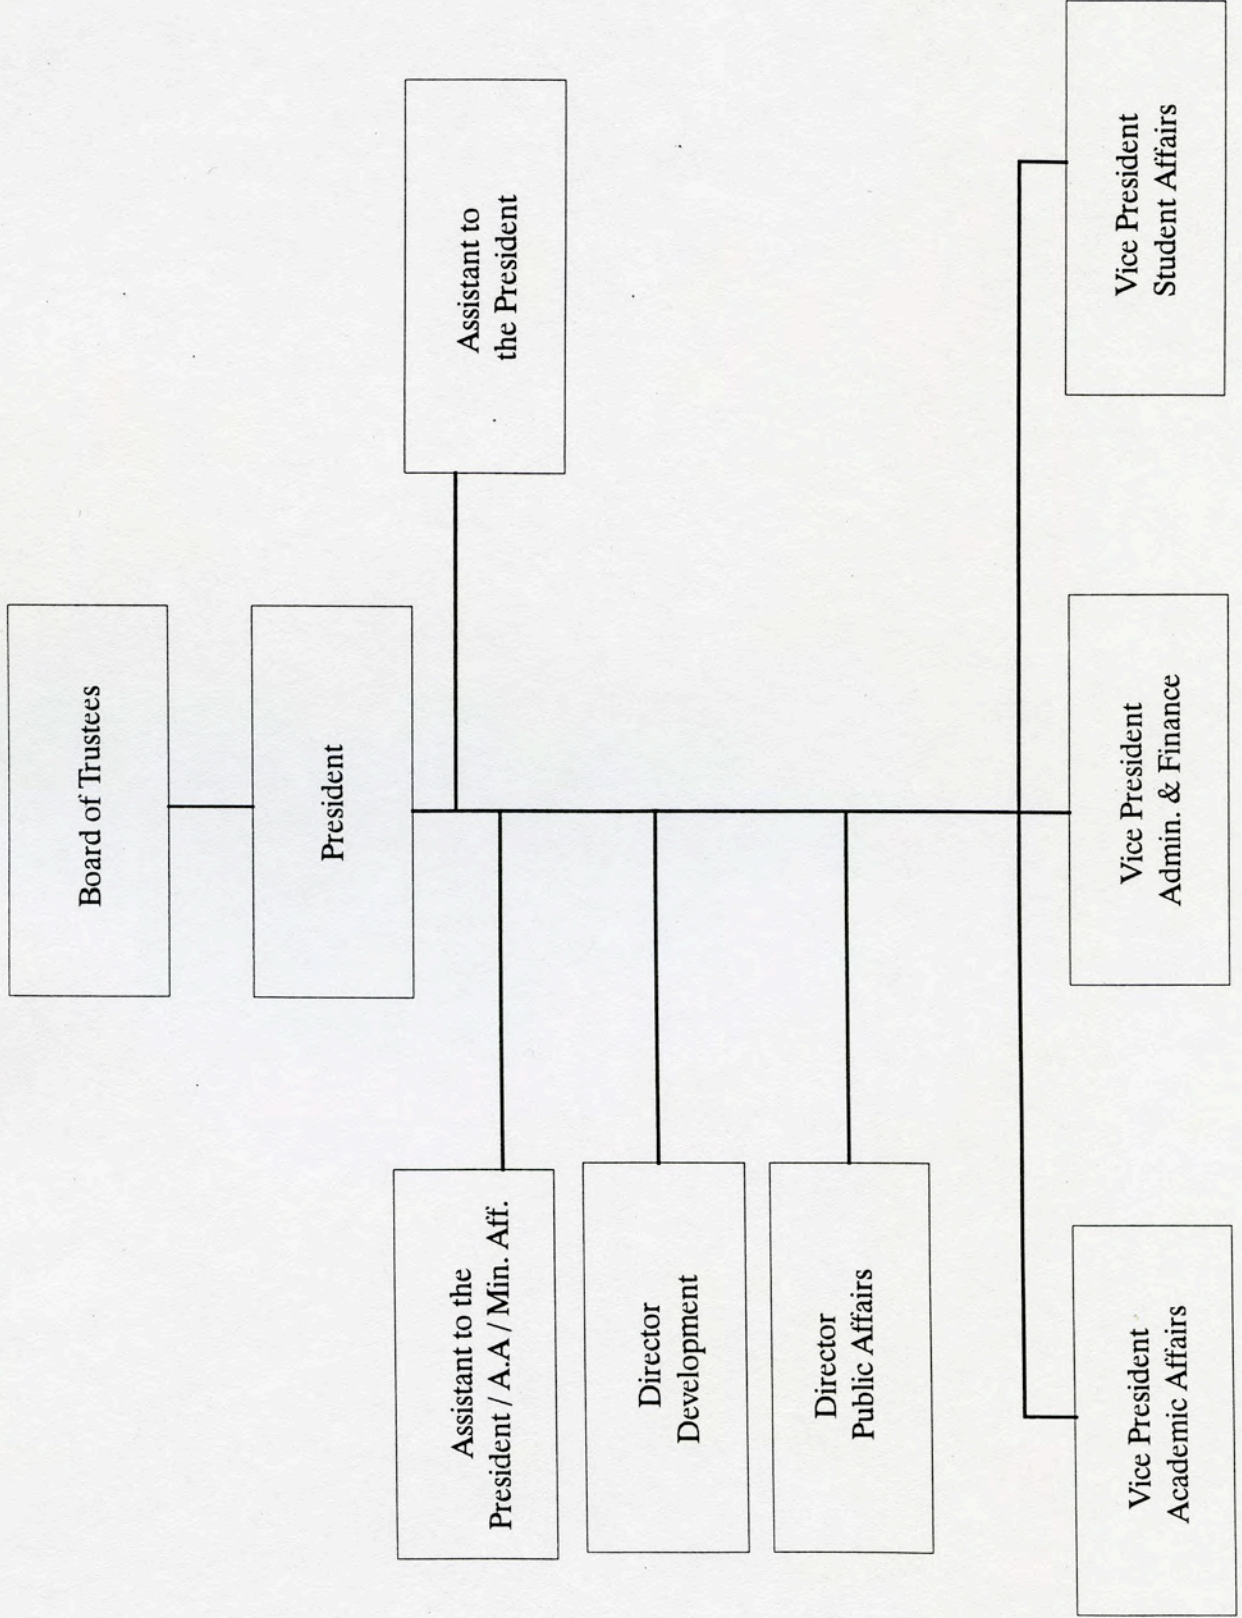

This publication reflects the cooperative efforts of several administrative offices across the campus. I would especially like to acknowledge the efforts of our research assistant, Kimberly Morse. Her work in creating the graphical and tabular representations is most appreciated.

Again, this work is published as a service to the College community. You can help us serve you better by providing constructive comments regarding its content and format.
